# Barcelona Cable Landing Station

Barcelona Cable Landing Station is the **leading neutral digital port** in Barcelona, the interconnection hub of the Mediterranean.

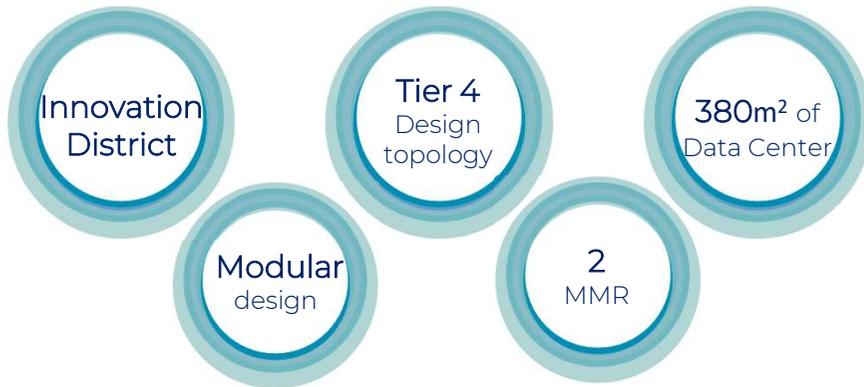

Barcelona CLS provides open access cable landing service to **submarine cable operators** and a **neutral Data Center to Carriers, ISP's and Content Providers** with direct access to the main international fiber routes and local hubs.

# The building

The building has 3 main areas:

- » Ground floor: for technical M&E areas and MMR 2.
- » First level: for IT halls: 1 Data Center, 8 separate Submarine Cable Rooms (SCR) and MMR 1.
- » Second level: for offices and NOC room.

## House of 2Africa and Medloop cable

10

- 2 Africa cable, landed on 24/10/2022
  - » 45,000km
  - » China Mobile, MTN, Meta, Orange, Saudi Telecom, Telecom Egypt, Vodafone, WIOCC

- Medloop cable, landed on 10/11/2022
  - » Sipartech

# Subsea Infrastructure Investments

**Medusa**  
Submarine Cable System

# Medusa Submarine Cable System

12

Medusa was born to be the new **Mediterranean Subsea Operator, neutral and Independent.**

Medusa, that has been designed as an **Open Access** submarine cable system, links the countries of the Mediterranean Sea and the European South Eastern Atlantic coast, with three main drivers:

- — North Africa with South Europe connectivity
- — Mediterranean with Atlantic connectivity
- — Mediterranean Islands to mainland connectivity.

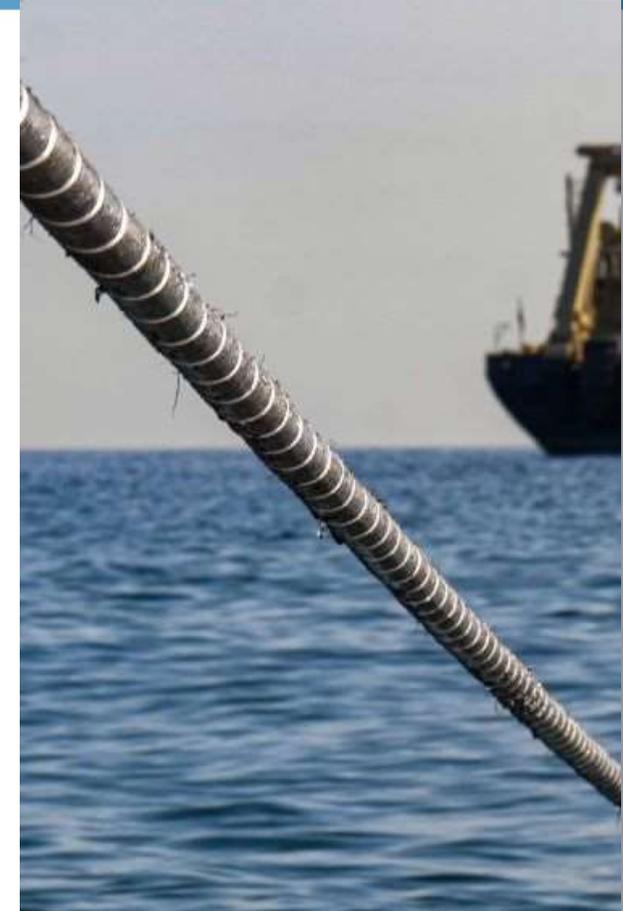

# Medusa Submarine Cable System

13

## o Organization:

- » Europe: headquartered in Ireland with local operational subsidiaries in Portugal, Spain, France, Italy, Greece and Cyprus as Holders of Licenses & PiPs + Owners of local Submarine assets.
- » North Africa: Landing party Agreements for Morocco, Algeria, Tunisia, Libya & Egypt.
- » NOC in Europe: Own staff for Operations and Maintenance.

Medusa creates a new corridor from Asia to the Atlantic and enabling the regional development of the information Society and its actors.

## AFR-IX telecom signs landing party agreement with Telecom Egypt for Medusa submarine cable

News / March 2, 2022

Barcelona, 2 March 2022: [Telecom Egypt](#), Egypt's first integrated telecom operator and one of the largest subsea cables operators in the region, and [AFR-IX Telecom](#), a Barcelona-based infrastructure and telecom operator, signed a landing party agreement for the landing of the largest Mediterranean submarine cable system, Medusa, in Egypt. The agreement was signed during the **Mobile World Congress 2022** in Barcelona by the Managing Director and CEO of Telecom Egypt, Mr. Adel Hamed and Norman Albi, CEO of AFR-IX Telecom and Medusa.

“

The Managing Director and CEO of Telecom Egypt, Mr. Adel Hamed: We are pleased to introduce additional connectivity to Egypt through the Medusa submarine cable system, which will increase diversity in the Mediterranean basin. We believe this agreement will be the beginning of more upcoming collaborations with AFR-IX telecom

CEO of AFR-IX telecom & Medusa, Norman Albi: The agreement with Telecom Egypt is key to the project as Egypt is an essential transit route for submarine cables due to its privileged position between Europe, Asia, and Africa. It is a very valuable connection to link East to West and North to South. With Medusa, we will also contribute to diversifying traditional routes such as those that land in Alexandria or Suez

## Orange Maroc welcomes Medusa

*Orange Morocco concludes an agreement with Medusa Submarine Cable System to offer a secure interconnection solution between Europe and Morocco that is open and efficient to all interested operators.*

*True to its position as a player committed to supporting the Kingdom's digital transition, Orange Morocco has decided to invest in new submarine cable infrastructure in the Nador region to strengthen Morocco's attractiveness as a gateway for digital exchanges in Africa. This new infrastructure will also strengthen the country's digital sovereignty.*

“

*We are particularly pleased to host the Medusa cable within Orange Morocco's infrastructure in Nador as part of a strategic and ambitious project. By combining our submarine cable landing stations with our new urban infrastructure, we are strengthening Morocco's attractiveness as a digital gateway to Africa, while confirming Morocco's digital sovereignty,*

*- Hendrik Kasteel, CEO of Orange Morocco”*

Orange Tunisia signs an agreement with Medusa Submarine Cable System to host the new submarine cable in Bizerte

News / May 11, 2023

Orange Tunisie for the landing at Bizerte

*Orange Tunisia and Medusa Submarine Cable System, a neutral and independent submarine infrastructure operator in the Mediterranean, signed an agreement on Thursday 11 May to deploy a submarine cable linking Tunisia (Bizerte) to Europe, via France (Marseilles). This cable will be built in compliance with the latest international standards and rules and will benefit the socio-economic participants in Tunisia.*

“ We are particularly pleased that Bizerte is hosting this new submarine cable, a strategic and ambitious project for Orange Tunisia which we are carrying out with our partner Medusa. It will eventually allow better accessibility to the Internet, making the digital world more inclusive and more focused on the fundamental needs of the Tunisian population and economy.

- Thierry Millet, CEO of Orange Tunisia

We are very proud to finalise this agreement with Orange Tunisia which will link the Medusa submarine cable to Bizerte and transform the northernmost region of the continent into a new gateway to Africa. Right from the start of this great project, we were committed to making Bizerte a major landing point, convinced that Orange Tunisia will develop this new infrastructure and promote its strategic location for the interconnection of Tunisia and beyond, from the continent. This new step demonstrates Medusa's commitment to lead and to encourage the long-term development of essential infrastructure in this region of the continent.

- Norman Albi, CEO of Medusa Submarine Cable System
